

Emergency Medical Technician - Basic (EMT-B)

Effective March 2025

Description

The Emergency Medical Technician - Basic program combines 150 hours of classroom and hands-on skills labs (hybrid) providing students the knowledge, skills and attributes to perform emergency medical care as an EMT-B for critical and emergent patients who access the emergency medical system and prepares graduates to enter the workforce. Students will gain complex knowledge, competency, and experience while employing evidence-based practice under medical oversight and serve as a link from the scene into the healthcare system. Graduates of this program will be eligible to take the National Registry of EMT-B exam. Students should possess good physical conditioning, strength and dexterity, have good vision and coordination and be able to respond quickly while applying critical thinking skills.

Upon successful completion of the EMTB program, students will have the following knowledge and skills:

- Perform basic first aid using established protocols.
- Assess patients' vital condition using critical thinking while under stress and end in emergency situations.
- Attain the necessary skill and knowledge to be able to earn EMT-Basic Credential and be eligible to work as Emergency Medical Technician Basic.
- Successful completers will also be prepared to apply for the WV EMT certification

Employment Opportunities

Emergency Medical Technicians play a key role in the health care delivery system in the United States by providing the appropriate basic life support to the sick and injured to the pre-hospital setting. The primary responsibility of the EMT-B is to provide expert emergency medical care to victims of emergencies and to transport them safely to the appropriate facility. The individuals who successfully complete the course and pass the exam will possess these attributes and will be eligible for employment with public and private EMS providers, hospitals, and other industries that mandate on-site Emergency Services.

Tuition:

\$950 per person (Max 20)

Includes all training textbooks, supplies, on-site practicum and NREMT Exam Voucher

Payment is required at least 2 weeks prior to the start date of the course.
